About AMRMCP

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Date: 17-6-2019

Program Name: Development And Validation Of Innovations In Analytical Techniques

Date of Activity: 14-6-2019

Venue: A.M. Reddy Memorial College Of Pharmacy.

Details of The Resource Person: Dr Bhaskar Raju,
Professor
Dept Of Pharmaceutical Analysis,
Sri Vasavi Institute of Pharmaceutical Sciences
Thadepalli Gudem.
Bhaskar.br@gmail.com
9491352334

No. of Participants: 24

Outcome of The Program:

Validation is one of the key elements to fulfill the requirement of current good manufacturing specifications (CGMP) and good laboratory specifications (GLP). In every pharmaceutical industry, the testing of raw materials, in-process materials, final containers and excipients should be effectively performed. analytical method validation is considered as the essential requirement for the testing of such pharmaceutical materials. For the testing of api, excipient and final product, an analytical procedure should be developed. Such well-developed procedure should essential assure that it will consistently produce the intended and precise result with high degree of accuracy. to gain such specific result, analytical method should be validated.

Topics Covered:

- Process Validation
- Analytical Method Validation
- Cleaning Validation
- Computerized System Validation

Objective of the program:

True entrepreneurs are resourceful, passionate and driven to succeed and improve. They're pioneers and are comfortable fighting on the front line.

An entrepreneur is a businessperson who not only conceives and organizes ventures but also frequently takes risks in doing so. Not all independent business people are true entrepreneurs, and not all entrepreneurs are created equal.

Topics covered:

Function of Hospital pharmacy.

Routine contacts of Hospital Pharmacy.

Organizational structure.

Pharmacist responsibilities.

Pharmacy Job aid.

Pharmacy & therapeutic committee.

Inventory management system.

Outcomes of the program:

This seminar provides enormous information of opportunities in India in pharmacy sectors. It gave an idea of hospital formulator and dispensing.

The seminars gave clear-cut information for structural organization, and knows the details of maintaining pharmacy & therapeutic committee etc.

About AMRMCP

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GATE, GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Objective of The Program:

The use of artificial intelligence (AI) has been increasing in various sectors of society, particularly the pharmaceutical industry. In this seminar, we highlighted the the use of AI in diverse sectors of the pharmaceutical industry, including drug discovery and development, drug repurposing, improving pharmaceutical productivity and clinical trials among others such use reduces the human workload as well as achieving targets in a short period of time.

Topics Covered:

- Identification & Therapeutically Approaches
- Diagnostic Approaches
- Monitoring Time Access For Drug Therapy
- Smart Electronic Health Records
- Scope Of Future Research
- Quick Review & Prevention Of Errors In Pharmaceutical Therapy

Outcomes of The Program:

This seminar provides better information of prevention of errors in pharmaceutical therapy and know the role of biomarks in drug therapy. It is better way of developing of artificial intelligence to know the reference of drug therapy.

Date of Activity:

03-08-2019

Venue:

A.M. Reddy Memorial College Of
Pharmacy.

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions. To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

Objectives of The Programme:

Intellectual property rights (IPR) refers to the legal rights given to the inventor or creator to protect his invention or creation for a certain period of time. These legal rights confer an exclusive right to the inventor, creator or his assignee to fully utilize his invention or creation for a given period of time.

Topics Covered:

- Patent Importance for Industrial Practice.
- Registration of Trademark.
- Patent Rights.
- Industrial Design.
- Procedure for Grant Patent Right.

Outcomes of The Program:

This seminar provides clear view in IPR. It tells us about the patents registration process and legislative measures.

About AMRMCP

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GATE, GPAT, PGCEI, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with debutant collection of 5000 books for issue & ready reference.

Objective of The Program:

The program presents a guide for research methodology and scientific writing covering various elements such as finding research problems, writing research proposals, obtaining funds for research, selecting research designs, searching the literature and review, collection of data and analysis, preparation of thesis, writing research papers for journals, citation and listing of references, preparation of visual materials, oral and poster presentation in conferences, and ethical issues in research.

Topics Covered:

- Selecting Research Designs
- Searching The Literature And Review
- Collection Of Data And Analysis
- Preparation Of Thesis,
- Writing Research Papers For Journals
- Citation
- Listing Of References,

Outcome of The Program:

This program helps students and teaching staff to understand various nuances in thesis writing, selecting research designs searching the literature and review, collection of data and analysis, preparation of thesis, writing research papers for journals, citation and listing of references. This makes change in attitude of researchers and students in paper writing.

Date of Activity:

19-9-2019

About AMRMCP

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions. To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

Objective of The Program:

World intellectual property organization is one of the specialized agencies of the united nations. WIPO was created in 1967 to encourage creative activity, to promote the protection of intellectual property through out the world. India joined in WIPO in 1975. The main types of intellectual property are copyrights, industrial design, trademarks, geographical indication, patents. Trademark is a sign capable of distinguishing the goods or services of one enterprise from those of the enterprises. Copyright is a legal term used to describe the rights that creators have over their literary and artistic works.

Topics Covered:

- Types of trademarks
- Trademark registration
- Trademark infringement
- Copyright protection
- Copyright vs. plagiarism
- Copyright registration in India
- Duration and fees of copyright work

Outcome of The program:

This seminar gave enoroumes knowledge regarding trademarks and copyright systems in india, which driven the students to step in to the new thoughts of becoming interprenuers. The seminar gave knowledge in the area of registrations, fee protocols, infrigments, etc.

About AMRMCP

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Objective of The Program:

The program presents a guide for research methodology and scientific writing covering various elements such as finding research problems, writing research proposals, obtaining funds for research, selecting research designs, searching the literature and review, collection of data and analysis, preparation of thesis, writing research papers for journals, citation and listing of references, preparation of visual materials, oral and poster presentation in conferences, and ethical issues in research.

Topics Covered

- Selecting Research Designs
- Searching The Literature And Review
- Collection Of Data And Analysis
- Preparation Of Thesis
- Writing Research Papers For Journals
- Citation
- Listing Of References

Outcome of The Program:

This program helps students and teaching staff to understand various nuances in thesis writing, selecting research designs searching the literature and review, collection of data and analysis, preparation of thesis, writing research papers for journals, citation and listing of references. This makes change in attitude of researchers and students in paper writing.

Date of Activity:

15-11-2019

Venue:

A.M. Reddy Memorial College of
Pharmacy.

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions. To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

**A
SEMINAR
ON
ENTERPRENEURSHIP
IN
COMMUNITY PHARMACY**

**Organized By
A.M. REDDY MEMORIAL COLLEGE OF
PHARMACY**

**Petlurivaripalem, Narasaraopet,
Guntur, Andhra Pradesh - 522 601 Phone:
08647-247194/247195**

**ON
30-11-2019**

Objective of The Program:

It gives information regarding entrepreneurship. An entrepreneur is a businessperson who not only convinces and organizes ventures but also frequently takes risks in doing so. Not all independent business people are true entrepreneurs, and not all entrepreneurs are created equal. The most frequent role for entrepreneurship in pharmacy education related to schools putting a greater emphasis on innovation and creativity.

Topics Covered:

- Function Of Hospital Pharmacy.
- Routine Contacts Of Hospital Pharmacy
- Organizational Structure
- Pharmacist Responsibilities.
- Pharmacy & Therapeutic Committee
- Inventory Management System.

Outcomes of The Program:

This seminar provides enormous information of opportunities in india in pharmacy sectors. It gave an idea of hospital formulator and dispensing. The seminars had given clear-cut information for structural organization and know the details of pharmacy & therapeutic committee etc.

About AMRMCP:

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Objective Of The Program:

There has been tremendous growth in the pharmaceutical industry in recent years, and the

Outlook continues to be positive. The industry is expected to exceed \$1 trillion by the

Following year. This is partly due to thousands of compounds currently in the latter stages of

Clinical development, coupled with hundreds of new products with approvals anticipated in

2023 and beyond. This level of pharmaceutical products is not customary and has not

Occurred for about a decade. Let's closely examine ten trends transforming the

Pharmaceutical industry in 2023.

Topics Covered:

- Use Of Artificial Intelligence
- Precision Medicine
- Integration Of Block Chain Technology
- Digital Processes
- Smaller Production
- Use Of Cloud Technology
- Discounts And Rebates
- Greater Focus On R&D Value

Outcomes Of The Program:

1.The participants of the seminar understood the the pharmaceutical industry encompasses manufacturing activities, preparation and marketing services of medicines,depending largely on r&d&i for its growth.

2.This sector is constantly forced to review its business model strategies in order to maximize the income from its patents and to optimize the creation of new drugs, making investment in r&d&i essential to avoid becoming obsolete in a highly competitive market.

3.Thanks to the investment in innovation in this area, the creation of new drugs, the increase in life expectancy and the large number of diseases treated, significantly improving the available treatments are made possible.

4.Likewise, investment in research and development in the area of pharmaceutical production not only improves the health of the population, but also, in the medium term, other aspects are detected, such as savings in health spending (by reducing hospitalizations) and the reduction of operating costs in the health sector.

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

No. Of Participants: 65

Objective Of The Program:

There has been tremendous growth in the pharmaceutical industry in recent years, and the Outlook continues to be positive. The industry is expected to exceed \$1 trillion by the Following year. This is partly due to thousands of compounds currently in the latter stages of Clinical development, coupled with hundreds of new products with approvals anticipated in 2023 and beyond. This level of pharmaceutical products is not customary and has not Occurred for about a decade. Let's closely examine ten trends transforming the Pharmaceutical industry in 2023.

Topics Covered:

- Use Of Artificial Intelligence

A.M.REDDY MEMORIAL COLLEGE OF PHARMACY

(Appr. by AICTE & PCI New Delhi; Reg. by Govt. of Andhra Pradesh, Affil. to Acharya Nagarjuna University)

Mastan Reddy Nagar, Petlurivaripalem (Po.), Narasaraopet (Md.), Guntur (Dt.) – 522601, AP, India

Phone: 08647-247194, 247193, Fax: 247192, Email: principalamrmcp2004@gmail.com, Website: www.amreddypharmacy.co.in

- Precision Medicine
- Integration Of Block Chain Technology
- Digital Processes
- Smaller Production
- Use Of Cloud Technology
- Discounts And Rebates
- Greater Focus On R&D Value

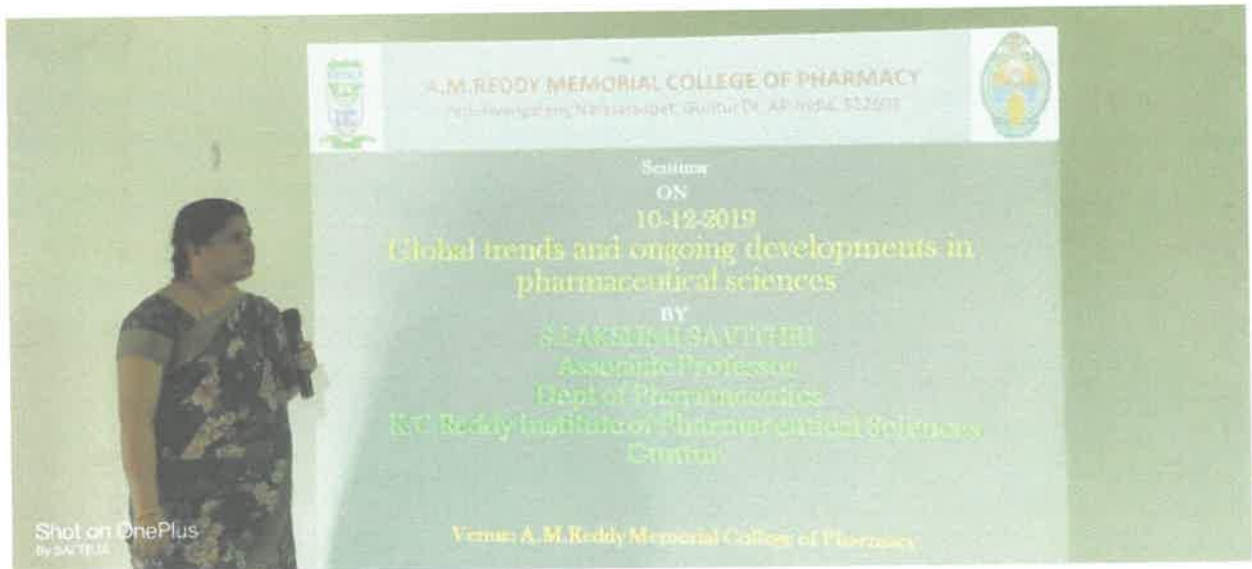

Outcomes Of The Program:

1. The participants of the seminar understood the the pharmaceutical industry encompasses manufacturing activities, preparation and marketing services of medicines, depending largely on r&d&i for its growth.
2. This sector is constantly forced to review its business model strategies in order to maximize the income from its patents and to optimize the creation of new drugs, making investment in r&d&i essential to avoid becoming obsolete in a highly competitive market.
3. Thanks to the investment in innovation in this area, the creation of new drugs, the increase in life expectancy and the large number of diseases treated, significantly improving the available treatments are made possible.
4. Likewise, investment in research and development in the area of pharmaceutical production not only improves the health of the population, but also, in the medium term, other aspects are detected, such as savings in health spending (by reducing hospitalizations) and the reduction of operating costs in the health sector.

About AMRMCP:

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Objective of The Program:

- The medical innovations and treatments leading to the discovery of new life-saving drugs must be protected through intellectual property rights (ipr).
- As the relationship between a consumer and a pharmaceutical product is based entirely on trust, trademarks help to distinguish and protect the brand on a company and product level.
- Patents offer pharmaceutical companies with exclusive rights to market their drugs and prevent others from selling, copying, or manufacturing these drugs for 20 years from the date of application.
- For pharmaceutical companies, ipr is a prerequisite for identifying, planning, commercializing, and protecting the inventions. They also encourage healthy competition, which promotes industrial development and economic growth.

Topics Covered:

- Patents
- Industrial Designs
- Trademarks
- Copyright
- Trade Secrets
- Protection Of Invention
- Economic Growth And Competitiveness
- Encourage Innovation And Reward Entrepreneurs
- Generate Solutions To Global Challenges
- Protects Consumers And Families

Outcome Of The Program:

The participants of the seminar will be able to understand the procedures to convert the research outcome into patents. The seminar will bring a positive transformation in the faculty member's attitude in their project and research works and get them more focussed as well as results oriented, and the processes further commercialization or technology transfer

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship ambience among the students.

About AMRMCP:

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledgeable pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

Details of The Resource Person:

G.Kiran,

Associate Professor

Dept Of Pharmacology

Viswabharathi College Of Pharmacy.

gerapatikiran@gmail.com

99669 49285

Objective of The Program

Drug discovery is a process which aims at identifying a compound therapeutically useful in curing and treating diseases. This process involves the identification of candidates, synthesis, characterization, validation, optimization, screening and assays for therapeutic efficacy. Once a compound has shown its significance in these investigations, it will initiate the process of drug development earlier to clinical trials. New drug development process must continue through several stages in order to make a medicine that is safe, effective and has approved all regulatory requirements.

Topics Covered:

- History Of Drug Discovery
- Stages Of Drug Development
- Recent Advances Of Drug Development
- Pre-Clinical Drug Discovery
- Clinical Drug Development
- Regulatory Development In India.

Outcomes of The Program:

This seminar detailed regarding the discovery of new drugs. It also explained the different ways they get metabolized. Some drugs affect males and females differently because of their different biology. Some drugs are not suitable for both adults and young children, so different drugs may be required to treat children.

Date of Activity:

27-01-2020

Venue:

About AMRMCP

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GATE, GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Our Vision

Our institutions vision is our North-star to carve a niche by itself, Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

Details of The Resource Person:

Dr Ch. Arun Kumar

Professor

Dept. of Pharmacology

Chips, Guntur.

arunch@djalavada@gmail.com

8074710310.

Objective of The Program

Enumerate three major reasons for formulating the objectives of the research; focus the study on narrowing it down to essentials; avoid collection of data that are not strictly necessary for understanding and solving the problem at hand; organize the study in clearly defined components or phases.

Topics Covered:

- **Types Of Research**
- **Objective Of Research**
- **Research Design**
- **Importance Of Research**
- **Need Of Cpcsea**
- **Governing Body Of Cpcsea**
- **Animal Care**
- **Experimental Models**
- **Documentation**

Outcomes of The Program:

This seminar explained several reasons why the use of animals were critical for biomedical research. Animals are biologically very similar to humans. In fact, mice share more than 98% dna with us. Animals are susceptible to most of the same health problems as humans – cancer, diabetes, heart disease, etc.

About AMRMCP:

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

Details of The Resource Person:

Mr. N.Anjaneyulu

Associate Professor

Dept. Of CSC

Am Reddy Memorial College Of Engineering And Technology

9951576394

Objectives of The Program

- To find the action of a drug, when the drug is given to animals or humans to see whether the changes produced are due to the drug or by chance.
- To compare the action of two different drugs or two successive dosages of the same drug.
- To find the relative potency of a new drug with respect to a standard drug.
- To compare the efficacy of a particular drug, operation or line of treatment, the percentage cured, relieved or died in the experiment and control groups, is compared and difference due to chance or otherwise is found by applying statistical techniques.

Topics Covered:

- Steps in research
- Study design
- Descriptive study
- Analytical observational study
- The logic of case- control study

Date:13/03/2020

Outcome of The Program:

Researchers all over the world are searching for the next generation of drugs to combat some of the greatest health threats we face in the 21st century. The biggest problem is often finding the right molecule to fight a disease with; many of our existing drugs have been discovered more or less by accident. It can be enormously time-consuming and expensive to test new drug candidates systematically in the lab to identify the ones with promising therapeutic properties to take forward into clinical trials. a new initiative in the department of statistics offers pharmaceutical companies the tools they need to make this process dramatically quicker and more efficient. This program makes students and staff to change their attitude towards research.
