A CERTIFICATE PROGRAM ON DRUG RELEASE STUDIES

Organized by

A.M. Reddy Memorial College Of Pharmacy

Approved by AICTE & PCI New Delhi Affiliated to ANU

Petlurivaripalem , Narasaraopet A.P

DATES: 16/9/2019 TO 26/9/2019

About AMRMCP:

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture here faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GATE, GPAT, PGECET, TOEFL, IELTS, GRE etc. the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class center excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically. To have an effective interaction with industry professional, alumni academicians of premier institutions. To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research the activities, entrepreneurship ambience among students.

Objectives

- To provide knowledge on various dissolution apparatus and their applications.
- To carryout dissolution studies and calculate the parameters for the obtained data.
- To understand drug release mechanism

Topics covered

- Basic concept of dissolution and equipment
- Dissolution of tablets
- Calculation of dissolution data
- Determination of release mechanism
- Same with capsules and trans-dermal patches
- Diffusion studies

REPORT

Name of the Program: A Certificate program on Drug release studies

Date: 16/9/2019- 26/9/2019

Details of resource person: R. Sunitha

Assistant Professor

A.M.Reddy Memorial College of Pharmacy

99491085099

raminenisunitha@gmail.com

No. of students attended: 77

Objectives of the program:

- To provide knowledge on various dissolution apparatus and their applications
- To carryout dissolution studies and calculate the parameters for the obtained data
- To understand drug release mechanism

Topics covered:

- Basic concept of dissolution and equipment
- Dissolution of tablets
- Calculation of dissolution data
- determination of release mechanism
- Same with capsules and transdermal patches (diffusion studies)

Outcome of the program:

Student should be able to

- Interpret drug release mechanism and optimization of release studies.
- Determine various pharmacokinetic parameters using dissolution data.
- To recall basic concept of absorption and excretion

About AMRMCP:

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching

excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

REPORT

Name Of The Program: A Certificate program on Different analytical techniques.

Date: 2/12/2019-12/12//2019

Details of resource person: B.Mallikarjunrao,

Associate professor

A.M.Reddy Memorial College of Pharmacy

9515461110

mallikarjunaraopharmacy@gmail.com

No. of students attended: 82

Objectives of the program:

- To understand the basic principles of preformulation parameters
- To explain basic concepts of solubility, pH, buffers
- To provide in depth knowledge of physical characteristics of drug prior to product development

Topics covered:

- Physical characteristics of drug
- Solubility studies
- Enhancement of solubility
- pH& buffers
- Particles size and surface area characterization
- Stability studies
- Factors affecting
- Chemical properties of drugs.

Outcome of the program:

Students are able to

- To enumerate physical properties of drug molecules
- To interpret the factors affecting the formulation
- To develop stable and effective dosage forms.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

Objectives of the program:

- To overview various unit operations
- To provide general principles of drying, size reduction & separation, filtration, centrifugation, distillation, rheology, heat transfer
- To study applications of unit operations and equipment's

Topics covered:

- General principles involved in various unit operations-size reduction, separation, drying, filtrations, centrifugation, distillation and milling.
- Construction of drying rate curve for a substance
- Factors affecting evaporation and filtration
- Size reduction by ball mill
- Size separation by sieving.

About AMRMCP:

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the

learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class center excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation

The digitalized library is well equipped with debutant collection of 5000 books for issue & ready reference.

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class center excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with

industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledgeable pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students

Objectives:

Computer-Aided Drug Design (CADD) emerged as an efficient means of identifying potential lead compounds and for aiding the developments of possible drugs for a wide range of diseases [8, 9]. Today, a number of computational approaches are being used to identify potential lead molecules from huge compound libraries. Computer-aided drug design uses computational approaches to discover, develop and analyze drugs and similar biologically active molecules. CADD can be divided into structure-based drug design (SBDD) and ligand-based drug design (LBDD).

The goal of the program is to gain knowledge on development of drug molecules using technology and getting aware of developing techniques in pharmacy.

Topics covered:

History and development of quantitative structure activity relationships (QSAR)

Physicochemical parameters and methods to calculate physicochemical parameters

Experimental and theoretical approaches for the determination of these physicochemical parameters.

2D-QSAR equations & 3D-QSAR approaches and contour map analysis.

Statistical methods used in QSAR analysis and importance of statistical parameters.

Molecular and Quantum Mechanics in drug design.

Concept of pharmacophore, pharmacophore mapping

In Silico Drug Design and Virtual Screening Techniques

Objectives of the program:

- To understand role of CADD in drug discovery
- To gain knowledge on Various strategies to design and develop new drug like molecules
- To provide information on in silico virtual screening protocols

Topics covered:

- History and development of quantitative structure activity relationships (QSAR)
- Physicochemical parameters and methods to calculate physicochemical parameters
- Experimental and theoretical approaches for the determination of these physicochemical parameters.
- 2D-QSAR equations & 3D-QSAR approaches and contour map analysis.
- Statistical methods used in QSAR analysis and importance of statistical parameters.
- Molecular and Quantum Mechanics in drug design.
- Concept of pharmacophore, pharmacophore mapping
- In Silico Drug Design and Virtual Screening Techniques

Outcome of the program:

Student will be able to

- Demonstrate applications of QSAR
- Understand different CADD techniques and their applications
- Work with molecular modeling softwares to design new drug molecules

Objectives of the program:

- To evaluate different herbal formulations.
- To study the significance of determination of phenolic contents.
- To study which methods are used for the estimation of total phenolic contents

Topics covered:

- Identification of phenolic components
- Preparation of extracts
- Determination of total phenolic contents in herbal formulations like Solid dosage forms-gutika and chruna Semi solid dosage forms-avaleha and ghrita Liquid dosage forms- asava and arista

Date: 15/2/2020

REPORT

Name Of The Program: A Certificate program on Estimation of total phenolic compounds in herbal marketed formulations.

Date: 3/2/2020-13/2/2020

Details of resource person: G.Venkateswarlu,

Associate Professor

A.M.Reddy Memorial College of Pharmacy

9000079873

venkateswarlugunji@gmail.com

No. of students attended: 72

Objectives of the program:

- To evaluate different herbal formulations.
- To study the significance of determination of phenolic contents.
- To study which methods are used for the estimation of total phenolic contents

Topics covered:

- Identification of phenolic components
- Preparation of extracts
- Determination of total phenolic contents in herbal formulations like
Solid dosage forms-gutika an chrana
Semi solid dosage forms-avaleha and ghrīṭa
Liquid dosage forms-asava and arista

Outcome of the program:

Students are able to

- Understand importance of phenolic compounds in herbal formulations.
- Acquire the knowledge on methods used for the estimation of total phenolic contents

About AMRMCP

M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class center excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions. To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

A.M.Reddy Memorial College of Pharmacy

9885601088

gopipharma.ch@gmail.com

No. of students attended: 82

Objectives of the program:

- To understand the basic principle of animal studies.
- To acquire knowledge on various experimental models.
- To provide information on application of animal models.

Topics covered:

- Importance of animal studies
- Types of animal models
- Inbred strains
- Adoptive transfer systems
- SCID mice
- Choice of animal model

Outcome of the program:

Students are able to

- The use of non-human animals in research
- To understand and improve human biology and health.
- Animal models allow to carefully manipulating environmental factors in order to understand how they contribute to development, behavior, and health.
