S. Srinivasulu
16/6/2017

Objectives of the program:

- To understand the basic standard operating procedures
- To explain basic handling procedures for equipments
- To provide in depth knowledge of physical characteristics of drug prior to product development

Topics covered:

- Basic SOP of all equipments
- Handling of equipments
- Solvents used for handling
- Uses of analytical equipments
- Particles size and surface area characterization
- Stability studies
- Factors affecting
- Chemical properties of drugs

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class center excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation

Dates:

26/06/2017-06/07//2017

About AMRMCP

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man.

It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

REPORT

Name Of The Program: A Certificate program on Training on analytical equipments

Date: 26/6/2017-6/7/2017

Details of resource person: B. Mallikarjun Rao,

Assistant professor

A.M.Reddy Memorial college of Pharmacy

9515461110

mallikarjunaraopharmacy@gmail.com

No. of students attended: 51

Objectives of the program:

- To develop practical skills in various analytical techniques.
- To provide opportunity for handling of different analytical equipment.
- To analyze quality and quantity of samples.

Topics covered:

- Introduction of analytical techniques
- UV Visible spectrophotometry
- HPLC
- Polarimetry
- Nephelometry
- Paper chromatography
- Thin layer chromatography
- pH meter
- Interpretation of IR & NMR spectra
- Overview of all techniques

Outcome of the program:

Students are able to

- Understand basic principles of various analytical techniques
- Handle different analytical equipment.
- Interpret data obtained from experiments.

About the Programme

Objectives:

A screening test is done to detect potential health disorders or diseases in people without symptoms of disease. The goal is early detection and lifestyle changes or surveillance, to reduce the risk of disease, or to detect it early enough to treat it most effectively. The program focuses on benefits of screening tests, types and methods of various diagnostic diseases.

Topics covered:

- Benefits of screening and diagnostics tests
- Types of screening tests
- Different diagnostics tests
- Evaluation of tests

About AMRMCP

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory. College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man.

It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark by its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Co ordinator:

M.Jhansi,

**Associate Professor,
A.M.Reddy Memorial College Of Pharmacy**

9959799171

jhansi92789@gmail.com

Objectives of the Programme:

Pure compounds are necessary for synthesis of API. Purification means the removal of unwanted impurities present in an organic compound. There are many techniques used for purification of compounds. The goal of program is to enumerate the purification techniques and their application in synthesis of drugs

Topics covered:

- Crystallization
- Distillation
- Steam distillation
- Fractional distillation
- Chromatography

REPORT

Name Of The Program: A Certificate program on Different techniques for the purification of organic compounds

Date: 18/9//2017-30/9//2017

Details of resource person: R. Padma,

Assistant professor

A.M.Reddy Memorial college of Pharmacy

996369259

padma9910@gmail.com

No. of students attended: 82

Objectives of the program:

- To know the different techniques for the purification of solid organic compounds and liquid organic compounds
- To know handling of distillation unit.
- To provide knowledge on various techniques for chromatography.

Topics covered:

- Crystallization
- Distillation
- Steam distillation
- Fractional distillation
- Chromatography

Outcome of the program:

Students are able to

- Separate impurities from the organic synthesized products.
- Handle different distillation units for purification of compounds
- Demonstrate basic principles of chromatography.

About the Certificate Programme

objectives:

3D printing has the potential to revolutionise the pharmaceutical manufacturing industry. Its potential to disrupt the pharmaceutical industry is vast, as 3D printing technologies could enable on-demand production of products with personalised dosages, drug combinations, geometries and release characteristics, not afforded by existing conventional manufacturing technologies like tableting and encapsulation. The objective of the program is to aware the students regarding 3D printing and its benefits in pharmaceutical industry.

Topics:

- Introduction to 3D printing
- Types of 3d printing procedure
- Types of 3d printing technology
- Medical applications of 3d technology
- Customized implants.

No. of students attended: 53

Objectives of the program:

- Update students with current technology in manufacturing and developing of dosage forms.
- General knowledge on 3d technology and its types.
- To provide an idea on patient by custom-designed multi-drug dosage forms with customized release profiles

Topics covered:

- Introduction to 3D printing
- Types of 3d printing procedure
- Types of 3d printing technology
- Medical applications of 3d technology
- Customized implants.

Outcome of the program:

Student will be able to

- Importance of personalized medicine.
- Understand importance of 3D printing technology in promoting personalized precision medicine.
- Choose proper excipients for optimal dosage forms.

Our Mission:

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

A CERTIFICATE PROGRAM ON ANALYSIS OF FATS AND OILS

Our Vision:

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class center excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, **the institute** focused on enhancing excellence in teaching with T emphasis on **practical** learning balanced with theory.

College of **Pharmacy** has excellent facilities even to undertake research & development **activities** to develop good quality healthcare products to benefit the nation **as a whole** and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work **to evolve** teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GATE, GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

About the program:

Objectives of the program:

- To check the purity of fats and oils
- To know different techniques for the determination of purity of fats and oils.
- Experimentation on samples for purity checking.

Topics covered:

- Classification of fats and oils
- Differences between fats and oils
- Chemical reactions of fats and oils
- Extraction techniques of fats and oils
- Different analytical techniques for purification of fats and oils
- Importance of fats and oils

REPORT

Name Of The Program: A Certificate program on Analysis of fats and oils

Date: 6/11//2017-16/11//2017

Details of resource person: P. Raghu, .

Assistant professor

A.M.Reddy Memorial college of Pharmacy

9010937327

praghu2019@gmail.com

No. of students attended: 22

Objectives of the program:

- To check the purity of fats and oils
- To know different techniques for the determination of purity of fats and oils.
- Experimentation on samples for purity checking.

Topics covered:

- Classification of fats and oils
- Differences between fats and oils
- Chemical reactions of fats and oils
- Extraction techniques of fats and oils
- Different analytical techniques for purification of fats and oils
- Importance of fats and oils

Outcome of the program:

Students are able to

- Differentiate fats and oils
- Determine percentage purity of the unknown sample'
- Explain extraction techniques of fats and oils

About AMRMCP:

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve

teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Dates:

From

20 November 2017

to

30 November 2017

A CERTIFICATE PROGRAM ON PHARMACY INFORMATICS

—Organized By—

**A.M Reddy Memorial College
of Pharmacy**

Approved by AICTE & PCI New Delhi

Petlurivaripalem, Narasaraopet

Andhra Pradesh - 522 601

Objectives of the program:

To assist in developing ways to utilize data and design interactive technology

To provide pharmacists with the skills to health care technology leaders.

To understand the value of personalized technology to improve patient's wellness.

Topics covered:

Data bases

Tele communications & Computer network

Pharmacy informatics integration

Decision support system and health care

- E use of technology
- Statistics in project management applied to health informatics
- Medical technology acquisition and assessment

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class center excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

REPORT

Name Of The Program: A Certificate program on Experimental Animal Models

Date: 22/1/2018-1/2//2018

Details of resource person: V. Geetha Rani,

Assistant professor

A.M.Reddy Memorial college of Pharmacy

7989291425

purnageetha15@gmail.com

No. of students attended: 79

Objectives of the program:

- To understand the basic principles of animal studies.
- To acquire knowledge on various experimental models.
- To provide information on application of animal models

Topics covered:

- Importance o animal studies
- Types of animal models
- Inbred strains
- Adoptive transfer systems.
- SCID mice
- Choice of animal model

Outcome of the program:

Students are able to

- The use of non-human animals in research
- To understand and improve human biology and health.
- Carefully manipulate environmental factors in order to carryout studies.
