About AMRMCP:

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with debutant collection of 5000 books for issue & ready reference.

Objective of The Program:

A pharmacist distributes drugs, provides drug information, consultation and counselling to the patients and to the other health care professionals to meet their needs and compliance. Thus, assuring improved health care to mankind.

Topics Covered:

- Indian Pharmaceutical Industry
- Current Trends In Pharmaceutical Industry
- Responsibilities In Pharmacy Public Health
- Understand Covid 19 Drug Management
- Patient Care
- Drug Dispensing

Outcomes of The Program:

This seminar gives community here doesn't only limit to patients, but also other health care professionals. In a hospital, pharmacists are stewards of the inventory of medications and equipment. It is a pharmacist's job to ensure that both health care professionals and patients.

Date of Activity:

25-09-2021

Venue:

**A.M. Reddy Memorial College Of
Pharmacy.**

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

About AMRMCP

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GATE, GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Objective of The Program:

Computer aided drug design (CADD) emerged as an efficient means of identifying potential lead compounds and for aiding the developments of possible drugs for a wide range of diseases. Today, a number of computational approaches are being used to identify potential lead molecules from huge compound libraries.

Topics Covered:

- Key steps in drug discovery
- Bioinformatics
- Drug designing approaches
- De nova approaches
- Homologymodeling
- Structure based drug designing

Outcome of The program:

CADD can assist researchers studying interactions between drugs and receptors. we believe this seminar will be helpful for better understanding of CADD and its applications towards the discovery of new drug candidates.

A GUEST LECTURE

ON

BIOMEDICAL RESEARCH

Objective of The Program:

Biomedical research is an evolutionary process requiring careful experimentation by many Scientists, including biologists and chemists. Discovery of new medicines and therapies Requires careful scientific experimentation, development, and evaluation. Biomedical Research is the broad area of science that looks for ways to prevent and treat diseases that Cause illness and death in people and in animals. This general field of research includes many Areas of both the life and physical sciences. Utilizing biotechnology techniques, biomedical Researchers study biological processes and diseases with the ultimate goal of developing Effective treatments and cures.

Topics Covered:

- Introduction Of Biomedical Research
- Human Disease Causality
- Practice Of Clinical Medicine
- Genetic Screening Of Inherited Diseases
- Medical Management Of The Patient
- Epidemiological Research

Outcomes of The Program:

This seminar provided information of biomedical research is the important because it is The first step towards the creation of new medications and treatments that help to manage all Different types of health conditions and diseases. Without this research, the prevention and cure of diseases would be practically impossible.

About AMRMCP

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GATE, GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with debutant collection of 5000 books for issue & ready reference.

About AMRMCP:

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GATE, GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with debutant collection of 5000 books for issue & ready reference.

Objectives of The Program:

- To find the action of a drug, when the drug is given to animals or humans to see whether the changes produced are due to the drug or by chance.
- To compare the action of two different drugs or two successive dosages of the same drug.
- To find the relative potency of a new drug with respect to a standard drug.
- To compare the efficacy of a particular drug, operation or line of treatment, the percentage cured, relieved or died in the experiment and control groups, is compared and difference due to chance or otherwise is found by applying statistical techniques.

Topics Covered:

- Steps in research
- Study design
- Descriptive study
- Analytical observational study
- The logic of case- control study

Outcome of The Program:

Researchers all over the world are searching for the next generation of drugs to combat some of the greatest health threats we face in the 21st century. The biggest problem is often finding the right molecule to fight a disease with; many of our existing drugs have been discovered more or less by accident. It can be enormously time-consuming and expensive to test new drug candidates systematically in the lab to identify the ones with promising therapeutic properties to take forward into clinical trials. A new initiative in the department of statistics offers pharmaceutical companies the tools they need to make this process dramatically quicker and more efficient. This program makes students and staff to change their attitude towards research.

Date of Activity:

15-11-2021

Venue:

A.M. Reddy Memorial College of Pharmacy

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

About AMRMCP

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Objective of The Program:

It has long been recognized that natural-product structures have the characteristics of high chemical diversity, biochemical specificity and other molecular properties that make them favorable as lead structures for drug discovery, and which serve to differentiate them from libraries of synthetic and combinatorial.

Topics Covered:

- Available Of Natural Products From Natural Resources.
- Process Of Selection
- Extraction Methods
- Crystallization Methods
- Pharmacotherapy
- Application Of Natural Products

Outcomes of The Program:

This seminar gives plants produce a rich and diverse array of natural products. These compounds have important ecological functions, providing protection against pests, diseases, ultraviolet-b damage and other environmental stresses.

About AMRMCP

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Objective of The Program:

1. To understand about drug purity & its strength, drug effects, prescriptions and over the counter medications, distribution of medicines, treatment and prevention of diseases.
2. To create awareness about pharmaceutical companies and industrial areas like production, quality control, marketing, regulatory affairs etc.

Topics Covered:

- Hospital Dispensing.
- New Techniques For Screening Of Medicines.
- Diagnosing A Disease.
- New Drugs In Market.
- New Approaches For Radiation Therapy.
- New Techniques Such As Gene Therapy.

Outcomes of The Program:

The participants of the seminar understood the essence of the seminar. This seminar gave the current scenario in marketing, modern drug therapy and the approaches. The seminar also focused on new emerging medicines in market and diagnosis of a disease or disorders. It gave new tags to the regular pharmacotherapy which is key to the pharmacist students.

PRINCIPAL
A.M. REDDY MEMORIAL
COLLEGE OF PHARMACY

Objective of The Program:

The main goals of preclinical studies are to determine a starting, safe dose for first-in-human study and assess potential toxicity of the product, which typically include new medical devices, prescription drugs and diagnostics.

The objective of clinical trials is to establish the effect of an intervention. Treatment effects are efficiently isolated by controlling for bias and confounding and by minimizing variation.

From last many years it is observed that investigation of pharmaceutical products by using preclinical studies were significant and there is potential scope for the researchers and students to take part in it.

Topics Covered:

- Basic Introduction Towards Instruments
- Animal Handling
- Animal Maintenances
- Animal Housing
- Route Of Drug Administration
- Preliminary Tests For Detecting Activities
- Basic Calculations.

Outcome of The Program:

The participants of this program will be able to understand the doubts regarding pre-clinical studies and queries in clinical trials. This seminar will be very useful to the faculty members as they will strive for the good research activities in the college. This program will enrich the students mind towards investigation and result oriented.

About AMRMCP

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students

8686966572

Objective of The Program:

- The medical innovations and treatments leading to the discovery of new life-saving drugs must be protected through intellectual property rights (ipr).
- As the relationship between a consumer and a pharmaceutical product is based entirely on trust, trademarks help to distinguish and protect the brand on a company and product level.
- Patents offer pharmaceutical companies with exclusive rights to market their drugs and prevent others from selling, copying, or manufacturing these drugs for 20 years from the date of application.
- For pharmaceutical companies, ipr is a prerequisite for identifying, planning, commercializing, and protecting the inventions. They also encourage healthy competition, which promotes industrial development and economic growth.

Topics Covered:

- Patents
- Industrial Designs
- Trademarks
- Copyright
- Trade Secrets
- Protection Of Invention
- Economic Growth And Competitiveness
- Encourage Innovation And Reward Entrepreneurs
- Generate Solutions To Global Challenges
- Protects Consumers And Families

Outcome of the Program:

The participants of the seminar will be able to understand the procedures to convert the research outcome into patents. The seminar will bring a positive transformation in the faculty member's attitude in their project and research works and get them more focused as well as results oriented, and the processes further commercialization or technology transfer.

About AMRMCP:

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

Details of The Resource Person:

Syad Gouse Firoz

Associate Professor

Dept. of Pharmaceutics

Narasaraopet Institute of Pharmaceutical Sciences

Narasaraopet

gouse641@gmail.com

8500992614

Date of Activity:

13-4-2022

Objective of The Program:

Pharmacoeconomics is a branch of health economics that usually focuses on balancing the costs and benefits of an intervention towards the use of limited resources, aiming at maximizing value to patients, healthcare payers and society through data driven decision making.

In the past years, several factors such as evidence-based healthcare culture, quality-linked incentives, and patient-centered actions, associated with an important increase of financial constraints and pressures on healthcare budgets, resulted in a growing interest by policy-makers in enlarging pharmacists' roles in care.

Topics Covered:

- Cost-Utility Analysis
- Cost-Consequence Analysis
- Cost-Benefit Analysis

Outcome of The Program:

Future high-quality economic evaluations with robust methodologies and study design are still required to investigate what pharmacist services have significant clinical and humanistic benefits to patients and substantiate the greatest cost savings for healthcare budgets. More work is also needed to develop valid and reliable composite pharmacy value measures to support future performance-based pharmacy payment models. This program was very much useful to budding pharmacist and working pharmacist.

Venue:

A.M. Reddy Memorial College Of
Pharmacy.

About AMRMCP

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Objective of The Program:

It is the study through experimental design in controlled situations which involves testing of pharmacologically unknown substance and pharmaceutical products in human and animal and photometric analysis (UV, IR, MS, and NMR), thin layer chromatography (TLC), high performance liquid chromatography (HPLC), and gas chromatography (GC) can be employed in order to establish the constant composition of herbal preparations.

Topics Covered:

- Preclinical Trails
- Development Of Drug Discovery Process
- Types Of Preclinical Research
- Toxicological Studies
- Tissue Culture Studies
- Genomic Studies
- Determination Of Radio Contaminants
- Determination Of Alpha-Toxins
- Stability Testing's

Outcomes of The Program:

This seminar gives herbal medicine is the precursor of modern medicine and drug development. It is still the useful knowledge and routines to foster new therapeutics in the clinic and useful drugs against new diseases.

Date of Activity:

02-05-2022

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions. To generate technically sound and knowledgeable pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

About AMRMCP:

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements.

To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship ambience among the students.

Details of The Resource Person:

Dr. P.Leela Madhuri

Senior Manager

Aurabindo Pharma Ltd

Hyderabad

8688156550

Objective of The Program:

1. To understand about drug purity & its strength, drug effects, prescriptions and over the counter medications, distribution of medicines, treatment and prevention of diseases.
2. To create awareness about pharmaceutical companies and industrial areas like production, quality control, marketing, regulatory affairs etc.

Topics Covered:

Hospital Dispensing.

New Techniques For Screening Of Medicines

Diagnosing A Disease

New Drugs In Market

New Approaches For Radiation Therapy

New Techniques Such As Gene Therapy

Outcomes of The Program:

The participants of the seminar understood the essence of the seminar. This seminar gave the current scenario in marketing, modern drug therapy and the approaches. The seminar also focused on new emerging medicines in market and diagnosis of a disease or disorders. It gave new tags to the regular pharmacotherapy which is key to the pharm d students.

A SEMINAR
ON
PATENT REGISTRATION
&
APPROVALS
IN
INDIA

Organised by

A.M. REDDY MEMORIAL COLLEGE OF PHARMACY

Approved by AICTED & PCI New Delhi

Affiliated to Acharya Nagarjuna University

Petlurivaripalem, Narasaraopet, Guntur,

Andhra Pradesh - 522601

Phone :08647-247194 Mail: principalamreddypharmacy@gmail.com

Website: www.amreddypharmacy.com

Objective of The Program:

Drug controller general (DCG) is the head of the central drug Standard control organization (CDSCO) that regulate medical devices and drugs in India. The objective of the drug regulatory authority is to ensure that medical products are of acceptable quality. After completion of the authorized quality control procedures, one can apply for the patent approval. For acquiring Patent approval standard protocol is customized in India as well as other countries.

Topics Covered:

- History Of Indian Patent System.
- Types Of Patents
- Process Of Patents Registration
- Patent Search
- Documentation
- Grant Of Patent

Outcomes of the program:

This seminar gives patent registration, the patentee shall have all the rights regarding controlling, making, using, selling or importing patented product or process for producing that product. After patent registration, no one will be able to use the invention without the consent of the patentee.

Date of Activity:

03-08-2022

A SEMINAR ON RECENT ADVANCES IN CLINICAL RESEARCH

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation.
To promote research activities, entrepreneurship among the students.

Objective of The Program:

Clinical research is a branch of medical science. ultimate goal is to improve the quality of life. One form of clinical research is systemic experimental biomedical studies. Clinical trails, successful when the protocol is carefully followed. A clinical trail is a research study in human volunteers to answer specific health questions. Carefully conducted clinical trails are the safest and fastest way to find treatments that work in people and ways to improve health.

Topics Covered:

- Introduction Of Cloacal Research
- Drug Developmental Stages
- Phases Of StudiesRegulatory Approvals Of Nda& Ind

- Preparation Of Plan Of Work
- Application Of Recent Advances In Clinical Research

Outcomes of The Program:

This seminar gives clinical research is vital to the national institutes of health (NIH) mission of enhancing health, lengthening life, and reducing the burdens of illness and disability. For instance, through clinical research we gain insights and answers about the safety and effectiveness of drugs and other therapies.
