4.3.1 Institution frequently updates its IT facilities including WIFI

Response:

A. M. Reddy memorial college of pharmacy improves its infrastructure according to the technical needs to meet the requirements of the industry. Computers with good configuration are available for both students as well as faculty members at reasonable ratio with Wi-Fi facility. The classrooms are also provided with LAN facility to improvise the teaching, learning process this creates photographic memory to the students. All buildings, hostels, Seminar halls, Auditorium and common areas in the campus are Wi-Fi enabled. AMRN provides good number of internet browsing centers with high configurations to the students and faculty members of all courses. Our college management has clear idea regarding the impact of information technology on the growth process of an individual hence in spite of financial burden they provide all the requirements in order to meet the present era industrial needs.

The administration and financial processes are completely computerized thus efficient and timely reporting of the work is done according to the need. Our library is equipped with the software which helps to track the books and journals available in the library. Separate cabins are provided to refer e-books as well as CD's. Training and placement department are performing their best by providing training to the students from the day one of their inception into the college. This helps the students to grab the opportunities that are present in the industries especially in the placement drive. Pharm. D is a course which has priority relate into clinical trials therefore we provide software's which can resolve their requirements meeting the standards of their syllabus prescribed by PCI added to that ARMN also has B. Pharmacy course and M. Pharmacy course (pharmaceutics, analysis, pharmacology) to fulfill the requirements of their projects using software's like animal simulation software, design expert software etc...The attendance marking system for students has been computerized which provide the attendance of each student on a day-to-day basis. Therefore, it helps by procuring and storing enormous volume of data and facilitates processes in areas of Planning and Development, administration, Finance and Accounts, Student admission and in the examination section of the College
