### **About AMRMCP:**

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfyin

the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

### **Outcome of the Program:**

- Validation and its concepts will bring the immense knowledge to students and upcoming analysts
- To understand the importance of analytical skills in handling various instruments and maintenance of instruments with proper validation.
- This program helps students and staff and their queries and various nuances in validation analytical instruments.

### **Outcome of The Program:**

Validation is one of the key elements to fulfill the requirement of current good manufacturing specifications (CGMP) and good laboratory specifications (GLP). In every pharmaceutical industry, the testing of raw materials, in-process materials, final containers and excipients should be effectively performed. Analytical method validation is considered as the essential requirement for the testing of such pharmaceutical materials. For the testing of API, expedients and final product, an analytical procedure should be developed. Such well-developed procedure should essential assure that it will consistently produce the intended and precise result with high degree of accuracy to gain such specific result, analytical method should be validated.

### **Topics Covered:**

- Process Validation
- Research Approaches
- Analytical Method Validation
- Cleaning Validation
- Computerized System Validation

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

## Objective of The Program

Pharmacoeconomics is a branch of health economics that usually focuses on balancing the costs and benefits of an intervention towards the use of limited resources, aiming at maximizing value to patients, healthcare payers and society through data driven decision making. In the past years, several factors such as evidence-based healthcare culture, quality-linked incentives, and patient-centered actions, associated with an important increase of financial constraints and pressures on healthcare budgets, resulted in a growing interest by policy-makers in enlarging pharmacists' roles in care.

### Topics Covered:

1. Cost-Utility Analysis
2. Cost-Consequence Analysis
3. Cost-Benefit Analysis

### Outcome Of The Program:

- Future high-quality economic evaluations with robust methodologies and study design are still required to investigate what pharmacist services have significant clinical and humanistic benefits
- To patients and substantiate the greatest cost savings for healthcare budgets. More work is also needed to develop valid and reliable composite pharmacy value measures
- To support future performance-based pharmacy payment models. This program was very much useful to budding pharmacist and working pharmacist

### Details of Resource Person:

## Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

## Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledgeable pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

## About the Programme

### Objective of The Program:

Drug safety is one of the hottest topics in daily medical practice, particularly with regard to approving new medication or questioning the possibility of withdrawing a drug from the market. A key component of the FDA mission is to protect the public health by assuring the safety of human drug products. Supporting this objective FDA is also responsible for advancing public health by facilitating the scientific innovations that can help make medicines safer while assuring that the public receives clear, accurate, science-based drug safety message.

### Topics Covered:

- Drug safety science
- Operations and management
- Safety communications
- Drug product development
- Drug safety oversight board
- Safety first in action
- Enhancing pre market drug review with digital tools

### Outcome of The Program:

- The drug safety concept has earned a lot of attention during the past decade due to the fact it plays a major role in patients' health.
- Recent laws stress this concept should be included in the process of new medications' approval and continued conduct of post-marketing drug evaluations.
- Benefit–risk assessment should be considered by all health care professionals when they need to give specific drugs to specific groups of patients.
- Therefore, more care should be given to some patients, such as pregnant women, children and the elderly, since they are considered vulnerable populations.

# A.M.REDDY MEMORIAL COLLEGE OF PHARMACY

(Appr. by AICTE & PCI New Delhi; Reg. by Govt. of Andhra Pradesh, Affil. to Acharya Nagarjuna University)

Mastan Reddy Nagar, Petturivaripalem (Po.), Narasaraopet (Md.), Guntur (Dt.) – 522601, AP, India

Phone: 08647-247194, 247193, Fax: 247192, Email: [principalammcp2004@gmail.com](mailto:principalammcp2004@gmail.com), Website: [www.amreddypharmacy.co.in](http://www.amreddypharmacy.co.in)

Date: 4-9-2017

**Program Name:** A Seminar On Drug Safety – Priorities, Initiatives And Innovations.

**Date of Activity:** 1-9-2017

**Venue:** A.M. Reddy Memorial College Of Pharmacy.

**Details of The Resource Person:** Dr.P.Vijetha

Professor

Dept Of Pharmacognosy

CHIPS, Guntur.

[Vijetha.85@gmail.com](mailto:Vijetha.85@gmail.com)

9581187686

**No. of Participants:** 35

## **Objective of The Program:**

Drug safety is one of the hottest topics in daily medical practice, particularly with regard to approving new medication or questioning the possibility of withdrawing a drug from the market. A key component of the FDA mission is to protect the public health by assuring the safety of human drug products. Supporting this objective FDA is also responsible for advancing public health by facilitating the scientific innovations that can help make medicines safer while assuring that the public receives clear, accurate, science-based drug safety message.

## **Topics Covered:**

- Drug safety science
- Operations and management
- Safety communications
- Drug product development
- Drug safety oversight board
- Safety first in action
- Enhancing pre market drug review with digital tools

Phone: 086-47-247194, 247193, Fax: 247192, Email: principalammcp2004@gmail.com, Website: www.amreddypharmacy.co.in

## Outcome of The Program:

- The drug safety concept has earned a lot of attention during the past decade due to the fact it plays a major role in patients' health.
- Recent laws stress this concept should be included in the process of new medications' approval and continued conduct of post-marketing drug evaluations.
- Benefit–risk assessment should be considered by all health care professionals when they need to give specific drugs to specific groups of patients.
- Therefore, more care should be given to some patients, such as pregnant women, children and the elderly, since they are considered vulnerable populations.

### About AMRMCP:

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation.

### Details Of The Resource Person:

**Dr K.Srikanth Kumar,**

Associate Professor

Dept. Of Pharmaceutical Chemistry

VVIPS, Gudlavalleru.

Mail: Karumanchi002@gmail.com

Mobile: 9494682732 ,

### Objectives of the Programme:

Water plays a crucial role in every animal life. There are a multitude of problems that can be occurred without water, and mankind's lives can be extinct. Several solutions should be implemented in order to protect water supplies and to treat water used in industries. Wastewater treatment is a sound economical and convenient way to overcome water scarcity.

Physical, chemical, biological and

mixed treatment systems provide ample opportunity to use water over and over again.

## One day National Workshop

**No. of Participants:** 35

## **Objectives of the Programme:**

Water plays a crucial role in every animal life. There are a multitude of problems that can be occurred without water, and mankind's lives can be extinct. Several solutions should be implemented in order to protect water supplies and to treat water used in industries. Wastewater treatment is sounded economical and convenient way to overcome water scarcity. Physical, chemical, biological and mixed treatment systems provide ample opportunity to use water over and over again. However, by using nanotechnology in these systems waste water treatment can reach much more quality and overcome their drawbacks. Nano-membranes in MBR technology is one of the most appropriate treatment technology that have potential to postpone water shortage until several years.

## **Topics Covered:**

- Waste Water Treatment Methods – Physical, Chemical & Biological

# A.M. REDDY MEMORIAL COLLEGE OF PHARMACY

(Appr. by AICTE & PCI New Delhi; Reg. by Govt. of Andhra Pradesh, Affil. to Acharya Nagarjuna University)

Mastan Reddy Nagar, Pethurivaripalem (Po.), Narasaraopet (Md.), Guntur (Dt.) -- 522601, AP, India

Phone: 08647-247194, 247193, Fax: 247192, Email: principalamrncp2004@gmail.com, Website: www.amreddypharmacy.co.in

- Nanotechnology In Waste Water Treatment
- Zero Valent Metal Nano Particals
  1. Silver Nano Particals
  2. Iron Nanoparticals
- Metal Oxide Nano Particals
  1. Tio<sub>2</sub> Nanoparticals
  2. Zno Nanoparticals
  3. Iron Oxide Nanoparticals
- Carbon Nanotubes
- Nano Composites
- Types Of Nano Materials In Waste Water Treatment

## **Out Comes Of The Programme:**

This seminar gives good knowledge about nanotechnology should be utilized as a supplementary technology beside other means for water treatment. The best form of using nanomaterials in this process is incorporating them with or without coating them on membranes and composites. The following key advantages: less pressure is required to pass water across the filter that means it dramatically decreases the operational costs, they are more efficient, and they have enormous surface areas which can be easily cleaned by back-flushing compared to conventional methods.

## Objective Of The Program :

Regulatory affairs is a comparatively new profession which has developed from the desire of governments to protect public health, by controlling the safety and efficacy of products in areas including pharmaceuticals, veterinary medicines, medical devices, pesticides, agrochemicals, cosmetics and complementary medicines.

## Topics Covered:

- Importance Of Regulatory Affairs
- Roll & Responsibilities' Of Regulatory Affairs.
- Regulatory Authority Function
- ICH Guideline
- Efficacy & Safety Guidelines.
- Regulation Of Pharmaceutical Industry
- Regulatory Bodies & Global Pharmaceutical Industry.

## Outcomes Of The Program:

The participants of the seminar understood the regulatory affairs of a pharmaceutical

Companies should responsible for obtaining approval for new pharmaceutical products and

Ensuring that approval is maintained for as long as the company wants to keep the product on the market.

## About AMRMCP

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society' s needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

**Organized by**

**A.M REDDY MEMORIAL COLLEGE OF PHARMACY**

**Approved by AICTE & PCI New Delhi**

**Affiliated to A N U**

**Petlurivaripalem, Narasaraopet, Guntur, A.P- 522 601**

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, OEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

## Objectives of the Workshop

There has been tremendous growth in the pharmaceutical industry in recent years, and Outlook continues to be positive. The industry is expected to exceed \$1 trillion by Following year. This is partly due to thousands of compounds currently in the latter stages Clinical development, coupled with hundreds of new products with approvals anticipated 2023 and beyond. This level of pharmaceutical products is not customary and has Occurred for about a decade. Let's closely examine ten trends transforming Pharmaceutical industry in 2023.

### Topics Covered:

- Use Of Artificial Intelligence
- Precision Medicine
- Integration Of Block Chain Technology
- Digital Processes
- Smaller Production
- Use Of Cloud Technology
- Discounts And Rebates
- Greater Focus On R&D Value

### Outcomes of The Program:

1. The participants of the seminar understood the the pharmaceutical industry encompasses manufacturing activities, preparation and marketing services of medicine depending largely on r&d&i for its growth.
2. This sector is constantly forced to review its business model strategies in order maximize the income from its patents and to optimize the creation of new drugs, making investment in r& d & i essential to avoid becoming obsolete in a high competitive market.

Thanks to the investment in innovation in this area, the creation of new drugs, the increase in life expectancy and the large number of diseases treated, significantly improving the available treatments are made possible.

Likewise, investment in research and development in the area of pharmaceutical production not only improves the health of the population, but also, in the medium term other aspects are detected, such as savings in health spending (by reducing hospitalization) and the reduction of operating costs in the health sector.

# **One Day National Workshop on ROLE AND IMPORTANCE OF IPR IN PHARMACEUTICAL INDUSTRY**

## **Objective Of The Program:**

- The medical innovations and treatments leading to the discovery of new life-saving drugs must be protected through intellectual property rights (IPR).
- As the relationship between a consumer and a pharmaceutical product is based on trust, trademarks help to distinguish and protect the brand on a company.
- Patents offer pharmaceutical companies with exclusive rights to market their drugs and prevent others from selling, copying, or manufacturing these drugs for 20 years from the date of application.
- For pharmaceutical companies, IPR is a prerequisite for identifying, planning, commercializing, and protecting the inventions. They also encourage healthy competition, which promotes industrial development and economic growth.

## **Topics Covered:**

- Patents
- Industrial Designs
- Trademarks
- Copyright
- Trade Secrets
- Protection Of Invention Economic Growth And Competitive

## **Outcome of the Program.**

The participants of the seminar will be able to understand the procedures to convert the research outcome into patents. The seminar will bring a positive transformation in the faculty member's attitude in their project and research works and get them more focused as well as results oriented, and the processes further Commercialization or technology transfer.

**Date of Workshop Programme**

**08-03-2018**

**Venue:**

**A.M. Reddy Memorial College Of Pharmacy.**

**Details Of The ResourcePerson: V.Vinod Kumar**  
**Associate Professor**

### **Our Vision**

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class center excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

### **Our Mission**

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

COLLEGE OF PHARMACY

**ONE DAY WORKSHOP  
ON  
“THE OPEN SOURCE TOOLS  
FOR  
COMPUTER AIDED  
DRUG DESIGN  
AND  
THEIR APPLICATIONS”**

**Organized by**

**A.M. REDDY MEMORIAL COLLEGE  
OF PHARMACY**

**Approved by AICTE & PCI New Delhi Affiliated  
to Acharya Nagarjuna University**

**Petlurivaripalem, Narasaraopet, A.P - 522601**

**Coordinator:  
M Jhansi Rani**

**About the Workshop:**

**Objective of The Program:**

Computer-aided drug design (CADD) emerged as an efficient means of Identifying potential lead compounds and for aiding the developments of possible Drugs for a wide range of diseases. Today, a number of computational approaches are being used to identify potential lead molecules from huge compound libraries.

**Topics Covered:**

- CADD & NDS
- QSAR & Molecular Docking
- Homology Modeling, SBDD & LBDD

**Outcome of The Program:**

CADD can assist researchers studying interactions between drugs and receptors. We believe this review will be helpful for better understanding of CADD and its Applications towards the discovery of new drug candidates against various fatal NDS.

**Workshop Date: 03-04-2018**

**Coordinator Details:**

## **About AMRMCP:**

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

## **Our Vision**

Our institutions vision is our North-star to carve a niche by itself Emerging as a world class centre excellence in pharmacy education undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurial attitudes; and meeting the global standards real and novel challenge of society and nation.

## **Our Mission**

Our mission is our direction to think and act. order to reflect the social responsiveness of the pharmacy college to society's needs for competent and  
competent pharmacists, quality and affordable healthcare and research directed at improving health care for  
individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring  
technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with  
emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality  
healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve  
academic excellence by development a work culture where faculty and students work to evolve teaching excellence by  
development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as  
teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field  
of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many  
ranks at national level competitive exams like GATE, GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the  
favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library  
is well equipped with collection of 5000 books for issue & ready reference.

### **Our Vision**

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in  
pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time;  
but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and  
meeting the global standards real and novel challenges of society and nation.

### **Our Mission**

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered  
teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on  
cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the  
faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni  
academicians of premier institutions.

### **Objective Of The Program**

It has long been recognized that natural-product structures have the characteristics of high chemical diversity,  
biochemical specificity and other molecular properties that make them favorable as lead structures for drug discovery,  
and which serve to differentiate them from libraries of synthetic and combinatorial.

### **Topics Covered**

- Available of natural products from natural resources.
- Process of selection
- Extraction methods
- Crystallization methods
- Pharmacotherapy
- Application of natural products

Date: 10-4-2018

**Program Name:** Integrating Traditional Knowledge And Current Technology In Herbal Drug Research

**Date Of Activity:** 9-4-2018

**Venue:** A.M. Reddy Memorial College Of Pharmacy.

**Details Of The Resource Person:** Dr. DSNBK Prasanth  
Assistant Professor  
Dept Of Pharmacognosy  
KL College of Pharmacy  
Vijayawada.  
[dsnbkprasanth@gmail.com](mailto:dsnbkprasanth@gmail.com)  
7382027437.

**No. Of Participants:** 33

## **Objective Of The Program**

It has long been recognized that natural-product structures have the characteristics of high chemical diversity, biochemical specificity and other molecular properties that make them favorable as lead structures for drug discovery, and which serve to differentiate them from libraries of synthetic and combinatorial.

## **Topics Covered**

- Available of natural products from natural resources.
- Process of selection
- Extraction methods
- Crystallization methods
- Pharmacotherapy
- Application of natural products
