LIST OF PROFESSIONAL DEVELOPMENT PROGRAMS

A.Y: 2017-18

S.No	Name of the program	Date	No. of participants
1	A One Week FDP on “New Challenges In Formulation Development And Quality Assurance”	17 – 7- 2017 To 22– 7 - 2017	25
2	A One Week FDP on “Research Methodology In Drug Discovery And Life Sciences”	21 – 8- 2017 To 26– 8 - 2017	25
3	A One Week FDP on “Chemistry Involved In Protein – Receptor Binding”	25 – 9-2017 To 30-9- 2017	25
4	A One Week FDP on “Recent Trends In Pharmaceutical Product Development Including Regulatory Aspect”	23 – 10-2017 To 28 – 10-2017	25
5	A One Week FDP on “New Techniques In Natural Product Driven Drug Discovery and Analytical Chemistry”	4 -12-2017 To 9-12- 2017	25
6	A One Week FDP on “Impact Of Green Chemistry Synthesis In Analysis Of Pharmaceuticals”.	12 – 02-2018 To 17- 02-2018	20
7	A One Week FDP on “Phytochemical Analytical Techniques And Their Validation”	26-03-2018 To 31-03- 2018	25
8	A One Week FDP on “Future Trends In Herbal Research”	23 – 04-2018 To 28-4- 2018	20

Welcome to the One Week FDP programme

About A.M.Reddy Memorial College of Pharmacy

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory. College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

About FDP Programme

Objectives of FDP:

- To achieve a predictable therapeutic response of a drug.
- To investigate capability of large scale manufacturing with reproducible product quality.
- Early identification of associated risks.
- To identify material attributes and process parameters that affect the drug product quality attributes.

Topics covered:

- Challenges of formulation.
- Increase in manufacturing complexity affect quality assurance
- Challenges faced by Quality Assurance in soft ware development.
- Current challenges in Quality management.

Name of the Resource Person:

Dr P.BHARATHI, PROFESSOR,

DEPT. OF PHARMACEUTICS,

KVSR SIDDHARTHA COLLEGE OF PHARMACEUTICAL SCIENCES, VIJAYAWADA.

Mrs A. SRIDEVI,

ASSOCIATE PROFESSOR, DEPT OF PHARMACEUTICS,

ADITYA COLLEGE OF PHARMACY, VISANNAPET.

Coordinator:

Mrs. J. LAKSHMI PRASANNA,

Associate Professor,

Department of Pharmaceutics,

PROGRAMME REPORT

Date: 24/07/2017

Name of the Programme: A One Week Faculty Development Programme on “New Challenges In Formulation Development And Quality Assurance”

Duration:: July 17TH to 22ND (One Week)

Resource Person: 1. Dr. A. Bharathi,

Professor,

Dept. Of Pharmaceutics,

KVSR Siddartha College Of Pharmacy

Vijayawada, 9393043134,

Email: Bharathi.arigela004@gmail.com

2. Mrs. A. Sridevi,

Assoc Prof, Dept Of Ceutics,

Aditya College Of Pharmacy,

Visannapet. 8464054790

Objectives of FDP:

1. To achieve a predictable therapeutic response of a drug.
2. To investigate capability of large scale manufacturing with reproducible product quality.
3. Early identification of associated risks.
4. To identify material attributes and process parameters that affect the drug product quality attributes.

Topics covered:

1. Challenges of formulation.
2. Increase in manufacturing complexity affect quality assurance
3. Challenges faced by Quality Assurance in soft ware development.
4. Current challenges in Quality management.

A.M. REDDY MEMORIAL COLLEGE OF PHARMACY

(Appr. by AICTE & PCI New Delhi, Reg. by Govt. of Andhra Pradesh, Affil. to Acharya Nagarjuna University)

Mastan Reddy Nagar, Petlurivaripalem (Po.), Narasaraopet (Md.), Guntur (Dt.) – 522601, AP, India

Phone: 08647-247194, 247193, Fax: 247192, Email: principalamrmcp2004@gmail.com, Website: www.amreddypharmacy.co.in

Outcomes of FDP:

1. It can be stated that production system operation problems can be reduced significantly and product quality can be improved by using new – so far not collected – data generation and by application of the big data conception.
2. Important research work in this field is to define the data types that have an influence on more effective operation of production systems, to develop technology for data collection, and to adapt of determined conclusions in cyber-physical system operation.
3. In connection with these, we have described some of the important data types that need to be collected and also their application possibilities.

A SIX DAYS
FACULTY DEVELOPMENT PROGRAM
ON

“RESEARCH METHODOLOGY IN
DRUG DISCOVERY AND LIFE
SCIENCES”

Dates:

21/08/2017

to

26/08/2017

About FDP Programme:

Objectives of FDP:

1. Develop better insight into Topic.
2. Provides systematic structure.
3. Enhances the research quality.
4. Derive better solutions.
5. Inculcates logical and systematic thinking.

Topics covered:

1. Target identification.
2. Target validation
3. Lead generation
4. Lead optimization
5. Candidate selection
6. Preclinical trials

Organised By

A.M. REDDY MEMORIAL COLLEGE OF PHARMACY

Outcomes Of FDP:

1. During the drug development process, when a compound is identified in the research laboratory for further development or initiatives would usually include understanding the implication of the disease and the existing treatments that are currently available.

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

About the FDP Programme:

Objectives of FDP:

1. Protein- ligand interactions are a necessary prerequisite for signal transduction, immunoreactions and gene regulation.
2. Protein- ligand interaction studies are important for understanding the mechanisms of biological regulation, and they provide theoretical basis for the design and discovery of new drug targets.

Topics covered:

1. Receptor protein function in cell membrane.
2. Receptor proteins example.
3. Receptor function.
4. Types of receptors
5. Receptor function in nervous system
6. Function of receptors in neuron

Objectives of FDP:

1. Protein- ligand interactions are a necessary prerequisite for signal transduction, immunoreactions and gene regulation.
2. Protein- ligand interaction studies are important for understanding the mechanisms of biological regulation, and they provide theoretical basis for the design and discovery of new drug targets.

A.M. REDDY MEMORIAL COLLEGE OF PHARMACY

(Appr. by AICTE & PCI New Delhi; Reg. by Govt. of Andhra Pradesh, Affil. to Acharya Nagarjuna University)

Mastan Reddy Nagar, Petlurivaripalem (Po.), Narasaraopet (Md.), Guntur (Dt.) - 522601, AP, India

Phone: 08647-247194, 247193, Fax: 247192, Email: principalamrmcp2004@gmail.com, Website: www.amreddypharmacy.co.in

Topics covered:

1. Receptor protein function in cell membrane.
2. Receptor proteins example.
3. Receptor function.
4. Types of receptors
5. Receptor function in nervous system
6. Function of receptors in neuron

Outcomes of FDP:

1. Proteins are essential for life and are essential for a wide range of cellular activities.
2. Protein enzymes catalyze the vast majority of chemical reactions that occur in the cell.
Proteins provide many of the structural elements of a cell, and they help to bind cells together into tissues.

DATES:

OCT 23RD to 28TH (One Week) 2017

VENUE:

A.M. REDDY MEMORIAL COLLEGE OF PHARMACY CAMPUS

ABOUT AMRMCP:

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Registration Fee: 400rs

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation.

To promote research activities, entrepreneurship among the students.

About the FDP Programme:

Objectives of FDP:

1. The aim of pharmaceutical development is to design a quality product and its manufacturing process to consistency deliver the intended performance of the product.
2. To promote high standards in pharmaceutical product production, quality assurance and preparation of compound medicinal prescriptions, pharmaceutical and other appropriate products.

Topics covered:

1. Pharmaceutical product development process
 2. New product development in pharmaceutical Industry
 3. Current trends in pharmaceutical industry
- 

Outcomes of FDP:

1. Predicting degradation related impurities and impurity considerations for pharmaceutical dosage forms.

FACULTY DEVELOPMENT PROGRAMME ON NEW TECHNIQUES IN NATURAL PRODUCT DRIVEN DRUG DISCOVERY AND ANALYTICAL CHEMISTRY

Date: DEC 4TH – 9TH (One Week)-2017

VENUE: AMRMCP SEMINAR HALL

ABOUT THE FDP PROGRAMME

Objectives of FDP:

- 1.The goal of a preclinical drug discovery program is to deliver one or more clinical candidate molecule, each of which has sufficient evidence of biologic activity at a target relevant to a disease as well as sufficient safety and drug like properties so that it can be entered into human testing.
- 2.Drug discovery using natural products is a challenging task for designing new leads. It describe the bioactive compounds derived from natural resources, its phytochemical analysis, characterization and pharmacological investigation.

TOPICS COVERED:

- 1.Natural products in drug discovery advances and opportunities
- 2.The strategies and techniques of drug discovery from natural products ...
- 3.Analytical chemistry for drug discovery and development.

OBJECTIVES OF FDP:

- 1.The development of new technologies has revolutionized the screening of natural products in discovering new drugs.
- 2.Utilizing these technologies gives us an opportunity to perform research in screening new molecules using a software and database to establish natural products as a major source for drug discovery

ABOUT THE AMRMC

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

Objectives of FDP:

1. Green chemistry aims to design and produce cost competitive chemical products and processes that attain the highest level of the pollution-prevention hierarchy by reducing pollution as its source.
2. Higher yields of chemical reactions, consuming smaller amounts of feedstock to obtain the same amount of product. Fewer synthetic steps, often allowing faster manufacturing of products, increasing plant capacity, and saving energy and water.

Topics covered:

1. What is green chemistry synthesis
2. What is the importance of green
3. Applications of green chemistry in organic synthesis

Outcomes of FDP:

1. The ultimate aim of green chemistry is to entirely cut down the stream of chemicals pouring into the environment.
2. The challenge of sustainability and green chemistry is leading to fundamental, game changing innovations in organic synthesis that will ultimately lead to economic, environmental and societal benefits in the pharmaceutical industry and in the chemical and allied industries at large.

PROGRAMME REPORT

Date: 18/02/2018

Name of the Programme : A One Week Faculty Development Programme on “ Impact Of Green Chemistry Synthesis In Analysis Of Pharmaceutical Sciences”

Duration: FEB 12TH – 17TH (One Week)

Resource Person: 1. Dr K.Ravi Kumar,

Prof, Vice-Principal, Dept Of Chemistry,

Hcop, Guntur. 9441797744

Email: Drkondaravikumar@Gmail.Com

2. Mrs S. P. K. N.V. L. Sarala,

Assistant Professor,

Department of Pharmacognosy,

Hindu College of Pharmacy,

Guntur – 522007,

Mobile: 9290450393,

Email: ssarala@hcopguntur.ac.in.

Objectives of FDP:

1. Green chemistry aims to design and produce cost competitive chemical products and processes that attain the highest level of the pollution-prevention hierarchy by reducing pollution as its source.
2. Higher yields of chemical reactions, consuming smaller amounts of feedstock to obtain the same amount of product. Fewer synthetic steps, often allowing faster manufacturing of products, increasing plant capacity, and saving energy and water.

A.M. REDDY MEMORIAL COLLEGE OF PHARMACY

(Appr. by AICTE & PCI New Delhi; Reg. by Govt. of Andhra Pradesh. Affil. to Acharya Nagarjuna University)

Mastan Reddy Nagar, Pethurivaripalem (Po.), Narasaraopet (Md.), Guntur (Dt.) - 522601, AP, India

Phone: 08647-247194, 247193, Fax: 247192, Email: principalammcp2004@gmail.com, Website: www.amreddypharmacy.co.in

Topics covered:

1. What is green chemistry synthesis
2. What is the importance of green
3. Applications of green chemistry in organic synthesis

Outcomes of FDP:

1. The ultimate aim of green chemistry is to entirely cut down the stream of chemicals pouring into the environment.
2. The challenge of sustainability and green chemistry is leading to fundamental, game changing innovations in organic synthesis that will ultimately lead to economic, environmental and societal benefits in the pharmaceutical industry and in the chemical and allied industries at large.

INTRODUCTION

A.M. Reddy Memorial College of Pharmacy is founded by NRIs to impart high quality technical and professional education in order to reflect the social responsiveness of the pharmacy college to society's needs for competent and compassionate pharmacists, quality and affordable healthcare and research directed at improving health care for individuals and the community.

The peerless institute was brought into existence to bridge the gap between industry and the institute and bring technology from lab to land. From the inception, the institute focused on enhancing excellence in teaching with emphasis on practical learning balanced with theory.

College of Pharmacy has excellent facilities even to undertake research & development activities to develop good quality healthcare products to benefit the nation as a whole and also the common man. It continuously strives to achieve academic excellence by development a work culture where faculty and students work to evolve teaching excellence by development a work to evolve teaching learning processes that are satisfying the ignited minds of the learners as well as teachers. The college has created a hallmark through its learning methodologies incorporating new initiatives in the field of pharmaceutical education.

The strength of A.M. Reddy Memorial College of Pharmacy is students, who have been continuously securing many ranks at national level competitive exams like GPAT, PGECET, TOEFL, IELTS, GRE etc., the institute gains the favor of the students, exclusively in global standard books coinage and high reputed publications. The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

Our Vision

Our institutions vision is our North-star to carve a niche by itself. Emerging as a world class centre excellence in pharmacy education; undeterred in decision-making; through the strategies, actions and mission may change over time; but ultimately to produce competent technocrats, nurturing the innovative, research and entrepreneurship attitudes; and meeting the global standards real and novel challenges of society and nation.

Our Mission

Our mission is our direction to think and act. To provide an affordable high-quality education student-centered teaching-learning processes to the professional aspirants of rural areas to impart skill-based and job-oriented training on cutting-edge technologies and achieve 100% placements. To create a healthy and conducive atmosphere among the faculty, students both professionally and ethically and have an effective interaction with industry professional, alumni academicians of premier institutions.

To generate technically sound and knowledge pharmacists to cater the needs of the nation. To promote research activities, entrepreneurship among the students.

PROGRAMME REPORT

Date: 01/04/2018

Name of the Programme: A One Week Faculty Development Programme on “Phytochemical Analytical Techniques And Their Validation”

Duration: MAR 26TH - 31ST (One Week)

Resource Person:1. Dr G. Ravindra,

Assoc. Prof, Dept. Of Ph. Analysis,

Akrig College, Nallajerla. 9030102494

Email: upendragudimitla@gmail.com

2. Dr Mohan Gandhi,

Assoc. Prof, Dept Of Analysis,

Vasavi Institute Of Pharmacy,

Tadepalli Gudem. 8328211891

Email: bmgandhipharma@gmail.com

Objectives of FDP:

1. The main objective of the validation is to demonstrate that the analytical method is suitable for its intended purpose, is accurate, specific and precise over the specified range that an analyte will be analyzed.
2. The method should give a specific result that may not be affected by external matters. This creates a requirement to validate the analytical procedures. The validation procedures consists of some characteristics parameters that makes the method acceptable with addition of statistical tools.

Topics covered:

1. General Techniques Involved in Phytochemical Analysis
2. Phytochemical Analysis
3. Analytical techniques involved in extraction.
4. Phytochemicals Extraction, Isolation, and Identification
5. What is the importance of characterization and evaluation of phytochemicals

A.M. REDDY MEMORIAL COLLEGE OF PHARMACY

Outcomes of FDP:

1. This Research Topic aims to fill the knowledge gap on plant-derived phytochemicals by developing novel analytical techniques, exploring novel sources of natural phytochemicals, evaluating product quality, and conducting in-depth studies of the mechanisms of nutritional function on human health, disease, and well-being.

The digitalized library is well equipped with collection of 5000 books for issue & ready reference.

OBJECTIVES OF THE FDP:

- 1.To conduct preclinical research and assist in the conduct of clinical research to prove the effectiveness and safety of herbal medicine based on scientific evidence and according to the required standards.
- 2.To conduct preclinical research and assist in the conduct of clinical research to prove the effectiveness and safety of herbal medicine based on scientific evidence and according to the required standards.
- 3.To contribute to the discovery and authentication of herbal products in Malaysia with scientific information, with aims of enhancing their commercial value and improving penetration of international markets.
- 4.To collect evidence-based information on herbal medicine and Traditional and Complementary Medicine (T&CM) through research for the preparation of compendium, monograph, and the electronic information web portal for integrated medicine known as the 'Global Information Hub on Integrated Medicine'.
- 5.To assist in T&CM research in Malaysia towards the goal of integrated medicine.
- 6.To cooperate in providing professional service to stakeholders especially the Ministry of Health (MOH) and other agencies related to herbal medicine and T&CM.
- 7.To provide consultation services to related public sectors and industries.
8. To provide herbal research-related trainings to relevant agencies, public sectors and industries.

8. To provide herbal research-related trainings to relevant agencies, public sectors and industries.

Topics covered:

1. Challenges and future prospects of herbal medicine
2. Current and Future Trends in Herbal Medicine
3. Challenges and future prospects of herbal medicine
4. Trends in herbal usage

Outcomes of FDP:

1. The wide spread use of herbal medicine is not restricted to developing countries. The rebirth of herbal medicine, especially in developed countries, is largely based on a renewed interest by the public and scientific information concerning plants.
2. Herbal remedies are popular among patient with chronic diseases. Classically trained physicians cannot ignore herbal medicines any more.
3. They must realize that large number of patients are using herbal medicines. They must have adequate knowledge and should be more open to discuss with their patient regarding herbal medicine
