ACADEMIC
INTERACTION :
A BOON TO
PHARMACY
PROFESSION**

DATE: 22/04/2024 TO 26/04/2024

TIME : 2.00 P.M - 3.30 P.M

VISION

Our institution vision is to emerge as a world class centre excellent in pharmacy education and to produce competent pharmacist meeting the global standards who are psychologically strong, socially conscious, and emotionally balanced with ethical values.

MISSION

Our Mission is to provide an affordable high-quality student-centred education to the aspirants of rural areas.

ABOUT COLLEGE

A M Reddy Memorial College of Pharmacy (AMRMCP) was established in the year 2004 by A M Reddy Educational Society, Narasaraopet with the motto of providing quality pharmacy education to the students. The institute is dedicated to nurture students through knowledge, innovation and the social and scientific prospect towards academic excellence.

The institute offers B.Pharm, M. Pharm in Pharmaceutics, Pharmaceutical Analysis, Pharmacology and Pharm. D affiliated to Acharya Nagarjuna University, Guntur. All the programmes are approved by Pharmacy council of India (PCI). Institute is permanently recognized by Acharya Nagarjuna University. A M Reddy Memorial College of pharmacy is recognized as Research centre by ANU. The institute has ISO 9001:2015 certification and approved by Global MCS, IAS and IAF.

COURSES OFFERED

PHARMACY : B. Pharmacy

Pharm. D : Doctor of Pharmacy

M.Pharmacy : Pharmacology, Pharmaceutics and Pharmaceutical Analysis.

ABOUT FDP

In our industry, technology touches every facet of pharmaceutical operations, from research laboratories to quality assurance and everything in between; novel drug discovery methods, streamlined clinical trials, and advanced manufacturing processes. Pharma companies operate within a labyrinth of regulations and standards. Here, technology acts as both a guiding light and a shield, ensuring that organizations remain compliant with evolving requirements.

To succeed, everyone in the industry needs to be able to adapt rapidly to any potential changing regulations. In this aspect, technologies play a crucial role in facilitating this adaptation through its different emerging pharma tech solutions. But one thing is clear. While innovation is limitless, we all know that budgets are not. So the thing is not just about introducing the latest technologies; it's about finding a balance between efficiency and cost management. And it is also about ensuring a seamless integration of them into processes. In 2024 and beyond, finding good technological solutions can make our day-to-day easier and ensure research, manufacturing and compliance processes work in harmony. Keeping this in mind we are organizing a e-FDP to fill the gap between the present technologies and prepared of the future requirements.
